BOOK SYNOPSIS

The responsibilities of the Pediatric Nephrologist in the Nephrologist and other involved specialists in critical care settings are multifaceted. Management of acute renal failure with and without renal replacement therapy, fluid and electrolyte abnormalities and hypertensive emergencies are only some of the major clinical topics in pediatric nephrology that are most germane to the care of the critically ill child. We have tried to look at the clinical situations the care of children admitted to the Pediatric Intensive Care Unit from the aspect of both the Pediatric Intensivist and Care Unit. Due to the complex and specialized care renal specialist. We hope that this book will supply the required, critical care nephrology could even be considered a separate entity compared to the clinical scenarios challenges faced in practicing Pediatric Intensive Care units treated in the outpatient setting or on the inpatient Nephrology pediatric ward.
