## BOOK SYNOPSIS

You don't need to know all about wine regions or how wine is made to choose wine with confidence. If you like the sound of intense, blackcurranty reds or aromatic whites, this book will tell you how to find these flavours in the wines you buy, regardless of whether the wine is labelled by grape variety or by country. Drinking wine is all about enjoyment. In this new digital edition, Oz explains how to get maximum enjoyment out of every bottle you buy, from dealing with broken corks, to learning basic tasting techniques, spotting faulty wine, and matching food and wine, whether at home or in a restaurant. In Oz's down-to-earth guide to all the world's major wine regions you'll find everything you need to know to navigate your way round a wine shop or wine website. Oz explores grape varieties, flavours and styles, giving equal consideration to classic wine regions such as Bordeaux and Chianti and the newer wine-producing countries such as New Zealand, Australia, Chile and Argentina. Do vintages matter? Are the wines good value for money? Oz tells you everything you really need to know. Gradually building your knowledge with expert tips, information boxes and wines to try, this is a complete guide for the beginner wine enthusiast.
